

Providing Progressive and Effective Professional Learning for Teachers Related to Standards, Curriculum, and Student Learning through Lesson

Sharon Dotger

Sharon is an Associate Professor of Science Education at Syracuse University. She is a practitioner, facilitator, and researcher of lesson study, having participated in more than 35 open research lessons over the last eleven years. Her lesson study work focuses on lesson study in science.

Jessica Whisher-Hehl

Jess is the Coordinator of Innovative Teaching & Learning at Onondaga-Cortland-Madison BOCES in Syracuse, NY. In this roll Jess and her team serve and lead 23 component school districts in the area of teacher professional development in all major content areas. This includes the oversight of a science curriculum materials center that serves approximately 1,500 K-6 classrooms. Jess is pursuing her passion for science education as a doctoral candidate in Science Education at Syracuse University.
