

What Were They Thinking? Examining Student Work

Christina Romero

Christina Romero is a digital learning coach with Santa Fe Public Schools. She earned a bachelor's degree in Business Administration and gained her teaching license through the University of New Mexico and Santa Fe Public Schools Teacher Intern Program. As a digital learning coach, she works in a community school to support integration of digital tools through training, modeling, co-teaching, and teacher support. Previously, she taught for 23 years, teaching third through fifth grades, integrating digital tools and utilizing multiple resources to get devices in her students' hands, including annexing an underutilized computer lab across the hall. She also served as a teacher, trainer, and site coordinator for the LASER i3 program, providing classroom implementation of inquiry science units, teacher support, training opportunities, and oversight of materials. She is a trainer for SSEC and the LANL Foundation Inquiry Science Education Consortium.
